## Driver Education In Glades Schools Again This Year

The driver education program of Pahokee and Belle Glade High Schools will be in operation when the schools open Tuesday morning, Sept. 8.

The cooperation of the County Board of Public Instruction and Glades automobile dealers is making this program very successful, according to W. A. Slaughter, instructor. The training car for the 1953-54 school year, to be furnished by the Belle Glade Motors, will be a customline 1953 Ford sedan with dual control. Civic organizations have also contributed to the program in the form of psycho-physical testing equipment necessary to its success.

The success of high school car driver educational courses is evidenced in the reduction of accidents by teenage drivers. This is true not only in the Glades area but in every section of the United States where youth are being taught the responsibilities and technique of car driving in high school, according to Slaughter.

In the Glades area the driver education department in the local high schools, started only last year, is growing beyond expectations. Approximately 150 new teenage drivers are expected to enroll in this training course during the new school year.

## Plans Complete For Band Program

A call meeting of the Pahokee Band Parents Association was held at the home of Mr. and Mrs. Robert O. Lampi on Thursday night of this week to complete plans for the annual programs of the Pahokee High School home football games, the printing of which is sponsored by the Pahokee High School Band.

The names of patrons who purchased advertisements in the programs last year were divided among the workers appointed to contact these business firms and individuals again this year, and names of prospective new patrons were discussed.

Bandmaster Lampi expressed the hope that the public will cooperate again this year in the purchase of advertising in the programs in the same generous manner as last year when the band raised sufficient funds from the programs making the usual drive to raise funds for its budget unnecessary. Such cooperation makes possible the printing of a colorful and attractive program and assists greatly in the development of a band of the highest caliber, Lampi said.

PBPA members named on the special committee to solicit the ads for the programs were Alex Johnson, association president, Mrs. A. Scruggs, Mrs. George Ramey, Mrs. Jess Elliott, Mrs. J. E. Williams, Mrs. John Pickett, Mrs. James Miller and Mrs. E. F. McIlwain.

Benny Baxter is visiting his father, H. B. Baxter, and Mrs. Baxter in Miami this week.

## Highway Patrol To Ask Civic Workers To Ride With Them

TALLAHASSEE—The highway patrol is going to invite civic club and safety group leaders of Florida to ride with its troopers during the long Labor Day holiday to see how troopers work to minimize wild driving, traffic crashes and death on the highways.

State Patrol Commander H. N. Kirkman said the plan, which has been tested in several cities already with success, is known as "Operation Holiday."

It was tried in several of the state's larger cities during the July 4th week-end, and met with widespread approval. Under the plan, civic group and safety leaders are assigned to go with state troopers and observe how traffic is handled.

They will be invited to ride from 6 p. m. Friday, September 4, through midnight Monday, September 7.

During the 1952 Labor Day week-end, eleven persons lost their lives as a result of highway accidents. However, the 1953 July 4th accidental death list was trimmed to only two persons killed compared with 12 for the same holiday period a year earlier.

"Our troop commanders have been instructed to invite civic and safety leaders to ride with troopers during the Labor Day holiday," said Commander Kirkman, "and to see just what the men do in their almost endless quest to minimize highway accidents, especially on holidays."

"However," Kirkman continued, "unless we are lucky, with increased traffic and all, we will not be able to get by without a fatal accident, but we certainly want to keep the figure as low as possible and it will take the cooperation of everyone to accomplish that objective."

All troopers not on vacation or ill, will be on duty during the week-end.

Guthrie, caretaker of the cemetery grounds.

The first action planned by the commission is enlarging the Negro section of the cemetery and setting up an operational budget for the cemetery through the 1953-54 fiscal year, subject to the approval of all three of the cities supporting the Port Mayaca Cemetery.

Mrs. H. T. Monroe has returned to Pahokee after spending the summer with relatives and friends in Georgia.

### Cinematic Chatter

By Malcolm Miller

Hello everybody! Casey Adams, talented young newcomer to Hollywood via the New York stage has been learning just "what's in a name." On arrival he was handed a long-term contract with the studio in no less than six capacities—as actor, director, composer, dialogue director, test director and lyricist—packaged together with a new name. The studio felt that with his own name of Max Showalter that had graced New York playbills in such hits as "Show Boat," "John Loves Mary" and "Make Mine Manhattan" was too foreign. They gave him the name of Tom Dodson. Somehow this name didn't strike Max as the most glamorous or exciting name in film history and he started casting around for another one. Finally his friends Gower and Marge Champion, the dance team, came up with the name Casey Adams. It clicked with Max and it stuck. Aside from subsequent embarrassments of forgetting who he is when called before cameras or by co-workers who themselves revert often enough to calling him Max, Casey has been making very nice headway since his first film appearance "With a Song In My Heart." Remember him? See you at the movies—Mal.

## WE ARE PARTNERS

We, the employees and stockholders of Gulfstream Park, like to feel that we are partners with the people of Florida in the building of a greater state.

The people of Florida have helped us to prosper and through dint of hard work to constantly improve our racing plant. In return, we have helped keep your taxes down by turning over \$8,061,626.92 to the governments of the 67 counties and \$14,922,195 to the state to help the needy aged, the blind and the dependent children. In addition, we have contributed more than \$375,000 to a scholarship fund to help worthy young people get an education and proportionate sums to various other charities.

We appreciate the opportunity we have had to do these things. We hope to make even greater contributions to a better Florida in the future.

## DO YOU REMEMBER?

HAPPENINGS IN THE LAKE OKEECHOBEE REGION

## 25 YEARS AGO

Just four months from now trains of the Florida East Coast Railway Company and the Atlantic Coast Line Railway, building from the eastern and western sides of Lake Okeechobee, are due to meet at Lake Harbor on Miami canal. The joining of the line January 1 will be a substantial materialization of what was dreamed a quarter of a century ago when land companies selling tracts in the Everglades and inviting settlement by farmers pictured a railroad and a highway all around the lake.

Water is running into Lake Okeechobee from most of the ditches north of Canal Point. When observed Wednesday afternoon water in some of the ditches was at a stand-still but there was a current to the lake from most of the ditches as far north as Uppergrove Beach. Land between Canal Point and St. Lucie canal on which clearing was underway is still under water.

County Engineer Jake Boyd has bought from T. D. Lumley a muckmobile for use in the fifth commissioner district. The muckmobile is a tractor attachment to a Chevrolet or Ford car or truck. By its use access can be had to land too soft to carry a car. Shipment of the attachment was made from the factory in the East.

The Canal Point High School and the grammar schools throughout the county will open Monday, September 17, by a formal announcement made the latter part of last week from the office of the county superintendent of public instruction in West Palm Beach which confirmed the report given in the Everglades News of August 10. The graded schools will open Monday, October 1.

Palm Beach Post No. 12, American Legion, announces it will hold a carnival in West Palm Beach, September 1, 3, 4, and 5. Each night from 7:30 to 3 free attractions will be staged.

Mrs. C. R. Baker of Canal Point and Ralph Walker of Okeechobee were married Monday of last week at Okeechobee. The ceremony was performed by County Judge Durrance. Mrs. Walker is the wife of the late C. R. Baker, who was the agent for the Gulf Refining Company and who died at Melbourne after he sold the Canal Point agency.

**OBSERVATIONS:** There will be a great scurrying of wildcats and coons when the railroad trains start running to Miami canal.

When television is developed a bit more, Chief Drainage Engineer Elliott can, from his office in Tallahassee, read the water gauges in the Everglades. Now he only thinks he can.

Proof of progress in the upper Everglades: Installation of a bathtub is no longer an item of news. A West Palm Beach man complains that the Everglades "picks on" his town. "When we are not suffocated with the smoke from your muck fires we are eaten up by your mosquitoes," he says.

The political preachers may make some converts for Hoover but if the zeal of their converts doesn't last any longer than the tent revivalists' converts' religion lasts, there will be the usual Democratic majority in Florida this fall.

How does it happen that none of the babies born in the upper Glades lately have been named Gene Tunney or Al Smith? Well, half of the answer is that Gene Tunney and Al Smith are names that do not fit girl babies. Then why not name them Ruth Bryan Owens?

The Miami man who is offering sawgrass land at \$35 an acre must be beginning to feel the pinch of the drainage taxes. He should plant corn—or cane.

The Sterling gas engine in the Pahokee pump station must be a really good engine. It is the kind of engine that rum-runners use in the boats that ply between Nassau and Miami.

Canal Point won again in the base ball game that was played Thursday of last week. Here's hoping that Pahokee won't lose the declining game of the series.

The upper Glades is not really up to date. We haven't had any arguments about whether high school girls will be expelled or suspended if they come to classes without stockings on. Not yet.

George Hardin, former employee of the Kentucky House and present assistant at Ben Sundy's chicken farm, was married to Miss Anna Mae Jones, of Cochran, Georgia, August 13th. Miss Jones, tiring of humdrum life in the Georgia peach county, put a note in a box of

peaches. This particular box was fated to come to Delray Beach, where it was purchased by L. H. Bradshaw for the Kentucky House. In need of waitresses Mr. Bradshaw sent for Miss Jones and here the romance began.

Belle Glade—The bunch from Belle Glade make this report of their fishing trip at the DuBois fishing camp in Jupiter: Mr. and Mrs. Murray Gay, Mr. and Mrs. Louis Creech and children Jack and Thomas, Messrs. Gifford and Steve Raulerson, Louis Weyman Burne and Miss Elizabeth Williams of Jupiter composed the party. Murray Gay has the honor of catching the largest fish and the most—a 16-pound bonita and a 8-pound kingfish and a 7-pound spanish mackerel, which are seldom caught on the east coast in the summer. Ask Louie Weyman about snipe hunting—he caught a whole sackful, but that's all right, the Jewfish will take care of him.

Blank spaces will be provided on the ballot for writing in the name of farmers, other than those listed, for whom a person might wish to vote.

The method of voting will be by casting ballots at the polling place designated above. Farmers will vote for only five persons to fill offices for Committee Members and Alternates, and for only two persons to fill the offices of Delegate and Alternate Delegate. The person receiving the highest number of votes will be declared elected Chairman, second highest Vice Chairman, the third highest Regular Member, fourth highest First Alternate, and fifth highest Second Alternate. For the two offices of Delegate, the person receiving highest number of votes will be declared elected Delegate and the second highest declared elected Alternate Delegate.

This is an important election and polls will be open Sept. 8 through 18, and all farmers are urged to go to the polls and cast their ballots.

M. U. Mounts, secretary  
Palm Beach County PM Committee.

McIntosh will work in Canal Point where an office in the Rardin building is shared jointly by the four districts. He and his wife and son are making their home in Pahokee at 66 West Main.

## Christian Science Group Of Canal Point

The purely spiritual nature of man as the child of God is emphasized in the Lesson-Sermon entitled "MAN" which will be read in all Christian Science churches next Sunday.

The basis for man's spirituality is indicated in the Golden Text: "And God said, Let us make man in our image, after our likeness" (Genesis 1:26).

Included among Bible selections is a statement made by Jesus which further stresses man's spiritual origin: "And call no man your father upon the earth: for one is your Father, which is in heaven" (Matthew 23:9).

Correlative passages from Science and Health with Key to the Scriptures included these: "In Science man is the offspring of Spirit—Spirit is his primitive and ultimate source of being; God is his Father, and Life is the law of his being" (p. 63).

## Seaboard Doesn't Like Tax Increase

TALLAHASSEE—The Seaboard Airline Railway has asked the Florida Supreme Court to set aside an increased assessment of its property for taxes.

Seaboard claims the State Railroad Assessment Board's order boosting the appraised value of its holdings by \$5,800,000 was adopted by an unconstitutional procedure and was "arbitrary, unreasonable, illegal and void."

Representatives of several other railroads have complained that their assessments are out of line with those of other property but they haven't raised the question in court.

The Assessment Board, composed of Comptroller C. M. Gay, Atty. Gen. Richard Erwin and Treasurer Ed Larson, recently upheld the Comptroller in declaring tax returns of six major Florida railroads to low and adopted his figures to boost their total assessments by 16 million dollars.

Seaboard claimed in its petition to the Supreme Court that the board's action was void because it failed to meet requirements of the law, that the Comptroller show his reasons for believing the returns were incorrect, that the board present information on the value of the railroad property, county by county, and in the aggregate, and that it advise the railway of the proposed assessment and the basis for determining it.

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

**If you want to be paid  
your interest as current income—  
invest in 3% Series H**

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.
